Leetcode

Motivated Software Developer and Full Stack Intern with hands-on experience in building end-to-end web applications using the MERN stack (MongoDB, Express, React, Node.js) along with Python and Flask for backend services. Strong foundation in frontend development, RESTful APIs, database management (SQL & MySQL), and version control using Git and GitHub. Skilled in developing scalable, data-driven, and user-centric applications, with a continuous drive to learn and apply modern web technologies.

Education

Dayananda Sagar University — **Expected in Jul 2026**
8.3 CGPA — Btech, Data Science

St Francis PU College — **Jan 2022**
88.16% — PCMC

Experience

LeadSOC Technologies — **October 2025**
Software Intern

- Developed and maintained full-stack web features using the MERN stack (MongoDB, Express, React, Node.js) along with Python and Flask, contributing to scalable and efficient application architecture.
- Designed and integrated RESTful APIs, managed databases using MongoDB and MySQL, and built responsive, user-friendly UI components to ensure smooth data flow and optimal user experience.
- Collaborated with cross-functional teams using Git and GitHub for version control, code reviews, and issue tracking, following best practices in collaborative software development.

Projects

Real Estate Web Application (MERN Stack)

- Developed a full-stack real estate application using the MERN stack with responsive and user-friendly frontend interfaces.
- Built and integrated backend APIs to manage property listings, user interactions, and application logic.
- Implemented MongoDB for efficient data storage and retrieval, focusing on scalability and performance.

Resume Analyzer Application

- Developed a full-stack resume analyzer application using React, Python (Flask), and RESTful APIs with a clean, responsive user interface.
- Built backend logic to process resumes and job descriptions, extracting relevant skills and keywords for comparison.
- Integrated AI-based APIs and database operations to improve matching accuracy and ensure efficient data handling.

Skills

Frontend Technologies:
HTML, CSS, JavaScript, React

Backend Technologies:
Node.js, Express.js, Python, Flask

Databases:
MongoDB, MySQL, SQL

Tools & Platforms:
Git, GitHub, VS Code

Other Skills:
Responsive Web Design, Full Stack Development, API Integration, Database Management, Version Control

Certifications

Full Stack Web Development In MERN
Web Stack Academy
August 2025

Completed comprehensive training in full stack web development covering HTML, CSS, JavaScript, React, Node.js, Express, MongoDB, SQL, and Python.

Awards

Award for Academic Excellence – Computer Science

Received an Award for Academic Excellence for scoring centum (100/100) in 2nd PUC Computer Science, recognizing strong conceptual understanding and consistent academic performance.
